

A Star is Born.

The **J.H. Snyder Company** proudly announces that

West Hollywood Gateway

a multi-level, retail complex over two levels of subterranean parking

was named statewide **PROJECT OF THE YEAR**

by the California Redevelopment Association in its Office/Commercial Retail category, one of the highest accolades in our industry.

We are honored by this distinguished recognition, which we share with our visionary West Hollywood partners - the city council, city staff and the residents of West Hollywood.

Together we transformed the corner of Santa Monica Boulevard and La Brea Avenue into a vibrant "Welcome to Exciting West Hollywood!" Cutting-edge architecture, a vibrant public plaza, a fountain and dramatic public art, invite the neighborhood and visitors in for outdoor dining, people-watching and shopping. The new center also preserves and embraces the historic Formosa Cafe.

The landmark **West Hollywood Gateway** exemplifies our commitment to work with local communities to create successful, "win-win" projects that enhance civic life.
